MEET THE SOUTHERN OHIO CHAMBER ALLIANCE BENEFIT PLAN.

OFFERING SMALL BUSINESSES MORE SAVINGS, LESS WORRY.

Welcome to an excellent opportunity for your business! The Southern Ohio Chamber Alliance (SOCA) Benefit Plan offers a self-funded solution for small businesses that lets you save on overall costs.

It's a great solution that lets you experience more predictable rates and competitive benefits usually only available to larger groups.

How's that work? Simple. The SOCA Benefit Plan is a multiple employer welfare arrangement (MEWA). MEWAs allow small employers to join together to share in the overall claims risk. By being part of a large, self-funded pool, employers have financial protection backed by Anthem's stop loss coverage.

It's time to rest easy. In addition to financial protection, this innovative option offers:

-  Competitive rates.
-  Fixed, predictable monthly payments.
-  A variety of plan designs.
-  Anthem's broad Blue Access PPO network and Essential Rx formulary.
-  Coverage for claims run-out/terminal liability coverage.

To top it off, you get expanded wellness offerings and innovative tools, programs and resources that all work together to improve health and lower costs. Plus, you have access to specialty rates and plan options created exclusively for SOCA Benefit Plan participants. This includes vision, life, disability and more!

HIGH-QUALITY CARE DESIGNED FOR WHOLE-PERSON HEALTH

Future Moms with Breastfeeding Support is also available on LiveHealth Online. Moms can have private and secure video visits with a lactation consultant, counselor or registered dietician via smartphone, tablet or computer with a webcam.

MyHealth Advantage

When claims or other health data show gaps or risks, we'll mail a confidential MyHealth Note to the employee outlining specific actions they can take for better health and lower health care costs.

ConditionCare

If you have employees dealing with a chronic condition like asthma or diabetes, they can get one-on-one help from a health care professional. They'll learn ways to manage their health and reach their health goals.

EMPLOYER FAQ

What is a MEWA?

A MEWA is a multiple employer welfare arrangement. It's an employee welfare benefit plan, trust or other arrangement that is established or maintained for the purpose of offering group insurance. It's governed by trustees and by-laws that satisfy the Ohio Department of Insurance (ODI) requirements.

How will the SOCA Benefit Plan pay our employees' claims? Will they have the funds necessary?

The initial capital requirement is \$500,000. The ODI does a quarterly adequate-risk-based capital monitoring of the plan to ensure the capital is adequate as the MEWA membership grows. Plus, Anthem is providing additional reinsurance protection under a quota share arrangement in addition to the specific and aggregate stop loss coverage provided.

Who makes the decisions for the SOCA Benefit Plan?

The SOCA Benefit Plan board of trustees is responsible for the oversight of the plan and ensures that the plan complies with all applicable laws and regulations.

Why would we choose a MEWA over an Affordable Care Act (ACA) plan?

This alternative self-funded solution could be a good fit for you for many reasons, including:

- Competitive rates
- Rating methodology similar to pre-ACA rating
- Predictable, fixed monthly payments
- Protection of being part of a large-self-funded pool backed by Anthem's stop loss
- Anthem's broad Blue Access PPO network
- Flexibility in choice of benefit plans

How do we determine if we are eligible to participate?

The SOCA Benefit Plan is available to small business employers that have at least two employees enrolled in their medical plan and no more than an average of 50 total employees. The employer's corporate headquarters must be located in Ohio and the business must be a member in good standing with a chamber of commerce that is qualified to offer the SOCA Benefit Plan. These chambers include:

- Southern Ohio Chamber Alliance (SOCA)
- Northern Ohio Area Chambers of Commerce (NOACC)
- Central Ohio Chambers of Commerce (COCC)
- Dayton Area Chamber of Commerce (DACC)
- Youngstown/Warren Regional Chamber (YWRC)

Do we need to meet certain participation and contribution requirements?

Yes. At least 75% of the net eligible employees and a minimum of two employees must be covered under the plan. The minimum employer contribution is at least 25% of the total cost for health benefits chosen in the event the employee has dependent benefits, and at least 50% of the total cost for health benefits in the event the employee has single benefits. If you contribute 100% of the premium equivalent, 100% of the net eligible employees must enroll.

Can we join the SOCA Benefit Plan at any time during the year?

Yes, however, all participating employers in the SOCA Benefit Plan renew on May 1 of every year.

How will our premium equivalent rate be determined?

There are multiple factors that impact your premium equivalent rate, including:

- Medical history and expected risk of your employees' future health claims
- Age and gender of your employees
- The number of employees enrolled on the benefit plan
- Where your company is located
- Benefits that are being offered

What components are included in our premium equivalent rate? Are there other amounts that we have to pay in addition to the premium equivalent rate?

Your premium equivalent rate covers expected claims, administrative expenses, taxes and assessments, and stop loss premium. In addition, chamber membership dues and product dues are required to be paid. These amounts are paid to the chamber that you are a member of and the SOCA Benefit Plan, respectively.

How will the annual renewal increase be determined?

An overall renewal increase needed for the SOCA Benefit Plan will be calculated based on a projection of the claims for the upcoming policy year for the entire SOCA Benefit Plan. Each participating employer's increase will then be calculated based on that employer's specific claims history and risk profile, as well as any changes in the demographics and number of enrolled employees of the group.

Can we terminate our policy at any time?

During the policy period, you may only elect to withdraw from the MEWA as of the end of a calendar month by giving written notice at least 60 days prior to that date. At renewal time, you must give written notice at least 30 days in advance.

We currently have an Anthem Blue Cross and Blue Shield policy. Will our employees have to change their doctor?

The SOCA Benefit Plan uses Anthem Blue Cross and Blue Shield's Blue Access health care provider network — one of the largest networks in the state. (It's always wise to make sure doctors are in-network prior to any service using the "Find a Doctor" tool on anthem.com.)

Are vision, life, disability and other plan options available?

Yes, participating employers in the SOCA Benefit Plan are eligible for other plans offered by Anthem. These are stand-alone, fully insured plans for which the participating employer contracts directly with Anthem.

“SOCA saved our office around \$13,000. We went searching for new health insurance when the county policy was going to increase by around 48%. Since we are a sub-division of the state we are able to either be on the county insurance program or house our own! That's when I found this program! It has been a lifesaver for us and we are now looking into additional coverage from Anthem!”

— Katie Kovaly
District program administrator
Monroe Soil and Water Conservation District

HOW TO PROTECT YOUR DIGITAL ASSETS

Leominster Public School System in Massachusetts surrendered \$10,000 to ward off their attackers. Hancock Regional Hospital in Indiana paid \$55,000 to stop their company take-down. A South Korean web provider forked over more than \$1 million after the company's servers were taken hostage.

All these instances are recent examples of hackers taking advantage of unprotected servers and using ransomware to demand payouts in untraceable Bitcoin. Ransomware is just one example of the growing volume and types of cybercrime, which can strike businesses and organizations large and small.

With ever-evolving technology, threats will continue to rise. Cyber economy researching and publishing firm Cybersecurity Ventures predicts cybercrime costs will grow to \$6 trillion annually by 2021. Security software development firm Symantec reports 43% of cyberattacks target small business, and the Small Business Innovation Research program reports the average cost of a cyberattack for a small business is \$20,752.

In the Dayton area, local business technology support company TechAdvisors is prepared to assist organizations and companies take necessary steps to protect from cybercrime. "One of the most important things you can do to defend your business against cyber-attacks is to secure your servers and email," said TechAdvisors President Randall East. "According to a report from phishing research group PhishMe, 91% of cyberattacks start with email scams. This can lead to a dangerous gateway, providing hackers with access to your digital systems, personnel files, and other vulnerable data."

In addition to ransomware and phishing, intellectual property theft is another way crooks can bring a company to its knees. "Trade secrets, customer information, copyrighted material — anything of economic value can be confiscated by hackers if your tech systems are left defenseless," East said.

The first step to ensuring protection against cybercrime is to assess the current risk of a business or organization. Assessments include:

- What software is mission critical?
- What hardware/software (if any) currently is in use to detect and stop threats?
- What training/guidance is provided to employees?

Understanding the ways systems and structures are susceptible to attack is important to identify appropriate and cost-effective measures to secure data and guard against potential threats. "Once we get a comprehensive picture of a company's weak points, we can devise a plan to strengthen those spots and reinforce anything that's already working well," East said. "This initial step is so important, **TechAdvisors is offering a free technology audit to any Chamber member.**"

The free technology audit will detect potential areas businesses may be exposed to cybercrime, offering pathways to defense and cyber security. Tackling this step sooner rather than later reduces the risk of ending up like the City of Atlanta, whose totals for payout and remediation after a recent ransomware attack are now more than \$5 million. "Don't wait for an emergency catalyst like a ransomware attack to protect yourself and your digital assets," East said. "The old maxim 'an ounce of prevention is worth a pound of cure' is just as true in today's digital world."

I was referred to Park-N-Go by a former co-worker who, like me, travels frequently. I started using their valet service a few weeks ago and am very satisfied with them. Drop off and Pickup Service is fast and the drivers and staff are courteous and friendly. I arrive at the airport late on Thursday night each week and want to get my car and get home as fast as possible and they make it happen. Highly recommend them.

Park-N-Go Dayton is by far the best team that I have had to interact with! The process is safe and my car is taken care of while I am gone. Their prices are more than reasonable. I have had my car detailed several times and the workmanship has been superior all times and exceeding other detailers that I have used in the past. When I come home with a click on my phone my car is prepared and ready while I am picked up at the airport. There is nothing better than having my car ready and waiting for me! In the summer the car is running and cool, in the winter my car is warm. Another additional perk is there is nothing for me to do but to get in my car and go home.

YELLOW SPRINGS DEVELOPMENT CORPORATION

While economic development has been occurring informally, there is now an officially designated economic development entity for the Village of Yellow Springs and Miami Township...the Yellow Springs Development Corporation. Legally, the YSDC is a quasi-governmental non-profit corporation formed to advance, encourage, and promote the industrial, economic, commercial, and civic development of the Village of Yellow Springs and Miami Township as described in Chapters 1702 and 1724 of the Ohio Revised Code.

In more basic terms, the YSDC is a group of ten community organizations including Miami Township, the Village of Yellow Springs, Yellow Springs Schools, Yellow Springs Chamber, Antioch College, the Yellow Springs Community Foundation, and one community member, formed for the purpose of conversation and collaboration on projects to benefit the economy, business community, and citizens of Yellow Springs. The Vision of the YSDC is to ensure a vibrant and economically healthy community.

The Mission of the YSDC is to serve as a coordinating and planning entity providing funding and oversight for projects that ensure the economic and cultural vitality of our community whether business, residential, or non-profit. This process starts with having major institutions at the table to discuss key topics like infrastructure investment, development opportunities, taxes, and more, to develop a mutual understanding of how to best accomplish community goals in a collaborative way.

The first project of the YSDC is to map local and county property tax levies to allow for a more thoughtful approach to funding. The second project is anticipated to be the old Miami Township Offices and Fire House located in the heart of the central business district. Rather than selling the property to the highest bidder as would be required if the property was retained by the Township, the YSDC would be able to consider a variety of proposals from potential purchasers to determine not only the sale price but the highest and best use of the property to benefit the entire community.

The YS Development Corporation is poised and ready to positively impact our community.
